§ 250 **Who may practise as registered nurses.** Any person being over the age of twenty years and of good moral character, holding a diploma from a training school for nurses connected with a hospital or sanitarium giving a course of at least two

1922
years, and registered by the Regents of The University of the State of New York as maintaining in this and other respects proper standards, all of which shall be determined by the said Regents, and who shall have received from the said Regents a certificate of his or her qualifications to practise as a trained, certified, graduate or registered nurse, shall be styled and known and entitled to practise as a registered nurse, and no other person shall assume such title, or use the abbreviation R. N. or any other words, letters or figures to indicate that the person using the same is a trained, certified, graduate or registered nurse. Before beginning to practise nursing every such registered nurse shall cause such certificate to be recorded in the county clerk's office of the county of his or her residence with an affidavit of his or her identity as the person to whom the same was so issued and of his or her place of residence within such county. In every year during the month of January, every registered nurse shall again cause his or her certificate to be recorded in the office of the Regents of The University of the State of New York, with an affidavit of his or her identity as the

person to whom the same was issued, and of his or her place of residence at the time of such reregistration. The registrant shall pay to the Regents a fee of one dollar for such reregistration. Nothing contained in this article shall be considered as conferring any authority to practise medicine or to undertake the treatment or cure of disease in violation of article eight of this chapter.

§ 250-a Who may practise as trained attendants. Any person being over the age of nineteen years and of good moral character, holding a certificate from a school for training attendants connected with any institution giving a course of at least nine months including six months' practical experience, and registered by the Regents of The University of the State of New York as maintaining in this and other respects proper standards, all of which shall be determined by the said Regents, and who, after a practical examination, shall have received from said Regents a certificate of his or her qualifications to care for the sick as a trained attendant, shall be styled and known as a trained attendant, and no other person shall assume such title, or use the

abbreviation T. A. or any other words, letters or figures to indicate that the person using the same is a trained attendant. Before beginning to practise, every such trained attendant shall cause such certificate to be recorded in the county clerk's office of the county of his or her residence, with an affidavit of his or her identity as the person to whom the same was so issued and of his or her place of residence. In every year during the month of January every trained attendant shall again cause his or her certificate to be recorded in the office of the Regents of The University of the State of New York, with an affidavit of his or her identity as the person to whom the same was issued and of his or her place of residence at the time of such reregistration. The registrants shall pay to the Regents a fee of fifty cents for each such reregistration. Nothing contained in this section shall be considered as conferring any authority to practise nursing as a registered nurse, or to practise medicine or to undertake the treatment or cure of disease in violation of article eight of this chapter.

§ 251 Board of examiners; rules; fees.
The board of examiners of nurses appointed

pursuant to Laws of 1903, chapter 293, is continued and hereby increased by the addition of two members. The New York State Nurses Association at each annual meeting shall nominate for examiners two of their members, each of whom shall be a registered nurse and have had not less than five years' experience in their professions. Upon the expiration of the term of office of any examiner now in office the Regents of The University of the State of New York may from the candidates so nominated or from the registered nurses in the State fill the vacancy for a term of five years and until his or her successor is chosen. An unexpired term of an examiner caused by death, resignation or otherwise, shall be filled by the Regents in the same manner as an original appointment is made. Any examiner may be removed by the Regents for misconduct, incapacity or neglect of duty. The Regents may appoint and at pleasure remove a registered nurse as secretary to the said board of examiners who shall not be a member of such board, and such registered nurse inspectors as are necessary for the purposes of this article to be paid from the funds received by the Regents under

the provisions of this article at such salaries as they may determine. The said Regents shall make rules for the examination and licensing of registered nurses, and trained attendants applying for certification under this article, and shall charge for examination and for certification and license a fee of ten dollars for nurses and five dollars for trained attendants to meet the actual expenses, and shall report annually their receipts and expenditures under the provisions of this article, to the State Comptroller, and pay the balance of receipts over expenditures to the State Treasurer. The said Regents may revoke any such certificate for sufficient cause after written notice to the holder thereof and hearing thereon.

No person shall thereafter practise as a trained, certified, graduate or registered nurse or a trained attendant under any such revoked certificate.

§ 251-a Examinations; licenses; registration. 1 The Regents shall admit to examination for registration, and shall license to practise nursing as a registered nurse, any candidate who shall pay the fee of ten dollars and submit satisfactory evidence, verified by oath if required, that he or she:

a Is more than twenty years of age and of good moral character ;

b Has a preliminary education of not less than one year of high school or its equivalent ; such educational requirement not to be increased before the year 1930 ;

c Holds a diploma showing graduation from a course of at least two years given by a training school for nurses connected with a hospital or sanitarium approved and registered by the Regents of The University of the State of New York.

2 The Regents shall license to practise nursing all registered nurses practising as such within the State of New York on or before the first day of June 1920, who make application therefor prior to the first day of January 1923, and who submit herewith satisfactory evidence that he or she is at the time of the application therefor registered and legally authorized, under section 250 of this article, to assume the title of registered nurse.

3 The Regents shall admit to examination for registration and shall license to care for the sick as a trained attendant, any candi-

date who shall pay the fee of five dollars and submit satisfactory evidence, verified by oath if required, that he or she:

a Is more than nineteen years of age and of good moral character;

b Has a preliminary education of at least the completion of the eighth grade in a grammar school or its equivalent;

c Holds a certificate showing graduation from a course of at least nine months' training given by a school, association, hospital or sanitarium approved and registered by the Regents of The University of the State of New York;

d Passes the examination for trained attendants.

4 A candidate may be licensed by the Regents as a trained attendant, provided application is made before the first day of January 1923, who

a Pays a fee of five dollars;

b Submits satisfactory evidence that he or she is more than nineteen years of age and of good moral character;

c Submits satisfactory evidence that he or she has had two years' experience in the care of the sick;

d Whose qualifications to practise as a trained attendant are certified to by three licensed physicians who have personal knowledge of the applicant's qualifications;

e Passes the examination for trained attendants.

5 On receiving from the board of examiners an official report that an applicant has successfully passed the examination, and is recommended for license, the Regents shall issue to him or her a license to practise according to the qualifications of the applicant as hereinbefore provided.

Every license shall be issued by the Regents under seal and shall be signed by the Commissioner of Education of the State of New York and by the secretary to the board of examiners.

Before any license is issued it shall be numbered and properly recorded and its number shall be noted in the license. The Regents may revoke any license for sufficient cause after written notice to the holder thereof and hearing thereon.

Applicants examined and registered by examining boards of other states registered by the Regents as maintaining stand-

ards not lower than those provided by this article may without further examination on payment of ten dollars to the Regents and on submitting such evidence as the Board of Regents may require receive from them an indorsement of their certificates or licenses conferring all rights and privileges of a Regents certificate and license after examination.

6 Every licensee to practise as a registered nurse or a trained attendant shall before the licensee begins to practise thereunder, register in the office of the clerk of the county where such practice is to be carried on, in a book kept by the clerk for such purpose, his or her name, residence, place and date of birth, date and number of his or her license and date of such registration, which registration he or she shall be entitled to make only upon exhibiting to the county clerk his or her license, or a duly authenticated copy thereof, and making affidavit stating the above facts and also that he or she is the identical person named in the license and had before receiving the same complied with all the requirements of this article and the rules of the Regents preliminary to the conferment of

such license; and that no money other than the fees prescribed by this article was paid directly or indirectly for such license; and that no fraud, misrepresentation or mistake in a material regard was employed or occurred in order that such license should be conferred. The county clerk shall preserve such affidavit in a bound volume and shall issue to every licentiate duly registered and making such affidavit a certificate of registration in his county, which shall include a transcript of the registration. Such transcript and the license may be offered as presumptive evidence in all courts of the facts stated therein. The county clerk's total fee for such registration, affidavit and certificate shall be one dollar.

7 A county clerk having properly issued a certificate of registration to a licensed registered nurse or trained attendant, shall forward a duly attested copy of the same and a copy of the affidavit and evidence upon which said certificate was issued, to the secretary of the board of examiners within thirty days of such initial registration. On or before the first day of May of each year the secretary of the board shall mail to every registered nurse and

trained attendant registered in the State of New York a blank application for reregistration, addressing the same in accordance with the post-office address given at the last previous registration. Upon receipt of such application blank which shall contain space for the insertion of his or her name, office and post-office address, date and number of his or her license, and such other information as the Regents deem necessary, and he or she shall sign and swear to the accuracy of the same before a notary public, after which he or she shall forward such sworn statement and application for renewal of his or her registration certificate to the secretary of the board, together with the fee of one dollar for registered nurses and fifty cents for trained attendants. Upon receipt of such application and fee and having verified the accuracy of the same by comparison with the applicant's initial registration statements the secretary of the board shall issue a certificate of registration which shall render the holder thereof a legally qualified registered nurse or trained attendant as the case may be for the ensuing year. These certificates of registration shall all bear date of Septem-

ber first of the year of issue and shall expire on the thirty-first day of August in the year following. On the first day of January of each year or within ten days thereafter, the secretary of the board shall publish and mail to every registered nurse and trained attendant in the State of New York, a printed list of the legally registered nurses and trained attendants within the State. Should any registered nurse or trained attendant continue to practise nursing and care of the sick beyond the first day of January despite the fact that his or her name does not appear in the register, he or she shall be counted as an illegal practitioner and his or her license may be suspended or revoked by the Regents in accordance with the provisions therefor of this article. All nurses already registered in this State at the time of the passage of this act shall make application to the secretary of the board for the reregistration blank upon receipt of which he or she shall in like manner already described make application for reregistration, forwarding to the secretary of the board the reregistration blank properly filled in and accompanied by the fee of one dollar. Said application

and fee must reach the secretary on or before the first day of December following the adoption of this statute; failing which the delinquent shall be dealt with as outlined in section 253 and in this section in relation to the suspension or revocation of said license.

§ 252 Waiver of examination for nurses.

The Regents of The University of the State of New York may upon the recommendation of said board of examiners, or upon evidence satisfactory to said Regents, waive the examination of any persons possessing the qualifications mentioned in section 250, who shall have been graduated before, or who were in training on the twenty-fourth day of April 1920, and shall thereafter be graduated, and of such persons now engaged in the practice of nursing and who have had three years' experience in the practice of nursing, two of which have been spent in practice in a hospital prior to 1920, or an equivalent for such hospital experience, such equivalent to be determined by the State Department of Education and the State Commissioner of Health, who

18 *The University of the State of New York*
make application in writing for such certificate prior to January 1, 1923.

§ 252-a **Waiver of examination for attendants.** The Regents of The University of the State of New York may upon evidence satisfactory to said Regents waive the examination of any persons possessing the qualifications mentioned in section 250-a of this article who shall have been graduated on the twenty-fourth day of April 1920, and shall thereafter be graduated, and of such persons now engaged in caring for the sick and who have had at least two years' experience in caring for the sick prior to 1920 and of such persons having less than two years' experience prior to 1920, who shall submit to a practical examination given by the board of examiners to demonstrate his or her fitness to care for the sick as a trained attendant, and who make application in writing for certificate to practise as a trained attendant prior to September 1, 1923. Every such application shall be accompanied by a written certification by three licensed physicians and one registered nurse acquainted with the applicant, of the facts in respect to applicant's

experience and qualifications to practise as a trained attendant.

§ 252-*b* **Saving clause.** Nothing contained herein shall prevent any person from engaging in nursing, provided, however, that he or she shall not assume the title of trained, certified, graduate or registered nurse or trained attendant, without complying with the provisions of this article.

§ 252-*c* **Nurses in state institutions.** The Regents of The University of the State of New York shall license as trained nurses graduates of training schools for nursing in state institutions, or institutions under the visitation of the State Hospital Commission, registered with the Regents and maintaining a three years' course for such training under such rules as the Regents have prescribed.

§ 252-*d* **Schools for trained attendants.** Any general hospital maintaining a nurse training school registered by the Regents of The University of the State of New York also may, with the approval of the Regents, conduct a school maintaining proper standards for the training of trained attendants, and on application and satisfactory evidence

that such proper standards are being maintained, may receive a certificate of registration of such training school for trained attendants.

§ 253 Violations of this article. A person who violates any provisions of this article shall forfeit to the State twenty-five dollars for a first offense, and fifty dollars for each subsequent offense. All fines imposed or forfeiture incurred hereunder may be sued for and collected by the Attorney General and the amounts thereof recovered, or received in any way by any one, shall be paid by the Regents of the University for use and disposition as provided for in section 251 of this article for the fees received from examinations.

§ 254 Advisory council. An advisory council shall be appointed by the Regents of The University of the State of New York. Such advisory council shall consist of three nurses, three physicians and three representatives of incorporated hospitals, and members of each of these three groups shall be appointed for terms of one, two and three years, respectively. Nominations to membership upon this council in twice

the number of the vacancies to be filled shall annually be made to the Regents of The University of the State of New York by the New York State Nurses Association and the New York State League of Nursing Education, in agreement between these associations upon the nominees; by the Medical Society of the State of New York, and by the Hospital Conference of New York City or the State Hospital Association, or both. It shall be the duty of the advisory council to organize by the election of a president, vice president and secretary, and to advise the Regents as to courses to be pursued and standards to be maintained in training schools for nurses and for trained attendants, and also as to the rules for the examination of nurses and trained attendants applying for certification, and from time to time to make such recommendations to the Regents as it shall deem proper for the right enforcement of this article. The said council shall meet upon the call of the President of the University or at the request of any five members.

Regents Rules, Training Schools for Nurses and Schools for Trained Attendants

§ 420 **Incorporation.** Both a training school for nurses and a school for trained attendants or the institution of which either is a department must be incorporated. Upon receipt of the formal application for incorporation or registration which shows that the school meets the minimum requirements of the statute and the rules, inspection shall be made by the University both for incorporation and registration.

§ 421 **Registration.** For registration, a nurse training school must be connected with a hospital or sanatorium having not less than 50 beds and a daily average of 30 patients, and each bed must meet the requirements of the State Board of Charities as to air space; but a school connected with a hospital having at least 25 beds and a daily average of 20 patients may be registered under the approved rules. The faculty of any nurse training school to be registered by the Board of Regents shall include a principal or superintendent and

three or more assistants, all of whom shall be registered nurses, and one of whom shall be qualified as a teacher of nursing and one of whom shall be in charge at night. The hospital should provide experience in the following departments of nursing: medical, surgical (including men and women), obstetrical, pediatric and dietetic. Training schools connected with hospitals not providing adequate opportunities for experience in all the above departments must become affiliated with institutions approved as giving such experience. Nurse training schools without the State shall be registered by the Regents or accredited by the University as they meet in full or in part the minimum requirements of the statute and the Regents Rules.

For registration the school for trained attendants must be located in the State of New York and be connected with a hospital, sanatorium or other institution able to provide a bedside experience in the care of adults and children under the approved administrative rules. There must be a competent principal of the school who is a registered nurse. Registered nurses must

be in charge of all wards in which attendants are on duty.

§ 422 **Preliminary education.** All schools registered by the Regents of the University must comply with the statute and the Regents Rules regulating the preliminary education of students in training schools for nurses and schools for trained attendants. Prior to the beginning of the professional course the evidence of the preliminary education of each student must be filed with the University and proper credentials issued by the Department must be filed with the school before admission of the applicant.

Admission to nurse training schools in institutions under the visitation of the State Hospital Commission. For admission to nurse training schools in such institutions the applicant must have passed an entrance examination prescribed by the committee on nursing of the quarterly conference of the State Hospital Commission, provided that such examination be approved by the State Board of Regents. This rule shall not be made retroactive in the case

of those who have already been admitted to such institution.

§ 423 **Professional education.** The period of instruction in a training school for nurses shall not be less than two full years, during which time students shall not be utilized to care for patients outside of the hospital; nor shall they be utilized for special duty, with the exception that training schools giving a three-year course may place their pupils on special cases in the hospital for a period not exceeding three months during the last year. Such training schools may also provide for instruction and practice in public health nursing. The course of instruction in all registered training schools for nurses must include a preliminary course of four months followed by the practical experience and the instruction required by the approved rules and outlined in the syllabus. The course of instruction in a school for trained attendants shall not be less than nine months including six months of practical experience. At graduation all students must have had adequate experience in the required services.

§ 424 **Examinations.** *a* Training schools for nurses registered by the Regents shall provide both practical and theoretical instruction in the following branches of nursing: (1) medical nursing (including materia medica), (2) surgical nursing, with operative technic (including gynecological), (3) obstetrical nursing (each pupil to have had the care of not less than ten cases), (4) nursing of sick children, (5) nutrition and cookery (including diet cooking for the sick), (6) a thorough course of theoretical instruction in contagious nursing where practical experience is impossible, and also theoretical instruction in the nursing of nervous and mental cases, (7) hygiene and sanitation. (Examination questions relating to the nursing of mental cases and upon the subject of hygiene and sanitation will not be given until September 1923.)

b Training schools for male nurses shall provide instruction in genito-urinary branches, in place of gynecological and obstetrical nursing.

The regular examination shall include principles and methods of nursing, elemen-

tary anatomy and physiology, and simple principles of bacteriology.

Examinations for license as trained attendant are practical only and are based upon the subjects outlined in the Attendant Syllabus.

The Issuance of the Certificate of Registered Nurse

The certificate of registered nurse may be issued to a candidate who

a Pays a fee of \$10.

b Submits evidence that she is more than 20 years of age, and of good moral character.

c Meets the preliminary and professional requirements.

d Passes the examination, or meets the requirement of the statute under the waiver.

Preliminary requirement. The preliminary requirement consists in the successful completion of one year of approved work in a secondary school, or the equivalent, prior to the beginning of the professional course.

Training schools registered by the Regents of the University shall require of each applicant for admission credentials showing the successful completion of at least a course of one year in a secondary school or its equivalent 18 counts in Re-

gents examinations at standings of 75 per cent or above. Evidence of such training in the case of each pupil admitted must be filed with the Education Department as a basis for the recognition of such pupil as a member of the training school.

Professional requirement. A candidate must present evidence of at least two years' study in a registered nurse training school with graduation therefrom.

Comity of action in the transfer of students from one professional school to another. The Department does not consider a course in a nurse training school satisfactory within the meaning of the public health law, article 12, Registration of nurses, section 250, if more than two conditions, one major of 100 hours and one minor of 50 hours, are allowed students for promotion from one year's class to the next.

Certificate under the waiver. A candidate who was graduated from a registered nurse training school prior to April 24, 1920, or who was in training on that date, and who later completed a course and received a diploma, or one who is now en-

gaged in the practice of nursing and who has had three years' experience, two of which have been spent in hospital practice prior to 1920 and who shall make application prior to January 1, 1923, may receive the certificate of registered nurse without examination.

Examinations. Three examinations are held annually, one in January or February, one in June and one in September at places prescribed by the Department for examinations in other professions. Applications must be made at least ten days in advance to the Department.

Male nurses will be examined on genito-urinary work as a substitute for obstetric cases. The practical demonstration will be conducted by a member of the board of examiners.

An applicant for examination must be a graduate of a registered training school. The examination includes both a practical demonstration and a written test. The examination includes questions on the following: (1) elementary bacteriology, (2) elementary materia medica, (3) elementary anatomy and physiology, (4) diet cooking,

(5) medical nursing including contagious diseases, (6) surgical nursing including gynecology, (7) obstetrical nursing, (8) nursing in children's diseases, (9) genito-urinary (for men).

An applicant failing in not more than two topics but having a general average of 75 per cent receives a certificate, but no standing under 50 per cent will be accepted even toward an average.

An applicant failing in not more than three topics may take a subsequent examination in the three topics and on passing two of the three may receive a certificate, provided the third subject is passed at 50 per cent or above. An applicant failing in two of the three topics must take the three over.

Schedule of examinations for the certificate of registered nurse from 1921 to 1925:

1921	1922	1923
Jan. 24-26	Jan. 23-25	Jan. 29-31
June 27-29	June 26-28	June 25-27
Sept. 26-28	Sept. 25-27	Sept. 24-26
1924	1925	
Jan. 28-30	Jan. 26-28	
June 23-25	June 22-24	
Sept. 22-24	Sept. 21-23	

Places

January and June and September
New York, Albany, Syracuse, Buffalo
also

January
Utica

June
Rochester

Each candidate is notified as to exact place.

Program

Day 9.15 a. m.

Monday Anatomy and physiology
 Medical nursing
 Nursing of children

Tuesday Obstetrical nursing (female
 nurses only)
 Genito-urinary nursing (male
 nurses only)
 Materia medica

Wednesday Bacteriology and surgery
 Diet cooking

Practical Examinations

The time and place of the practical examinations will be announced at the examination room Monday morning.

Rules Relating to the Licensing of Trained Attendants

Incorporation. The school for attendants, or the institution of which it is a department, must be located in the State of New York, must be incorporated, and upon receipt of its formal application for registration claiming that it possesses the minimum requirements it will be inspected by a representative of the Education Department.

Facilities for practical experience. For registration a school for attendants must be connected with a hospital, sanatorium or other institution able to provide a bedside experience in the care of men, women and children.

Services which are considered as peculiarly adapted for this experience are found in hospitals for convalescent and chronic patients, sanatoriums for tubercular and nervous patients, infirmaries in orphans' homes, convalescent children's wards and day nurseries.

A general hospital which conducts a registered school for nurses may conduct a

registered school for attendants only when situated in the State of New York, and when it is able to provide adequate clinical material for its student nurses in all required services and has a daily average of not less than 200 patients, excluding dispensary cases.

Schools for attendants will be approved in other institutions upon satisfactory evidence that the number of patients and the general character of the services do not warrant the maintenance of a nurse training school, but do warrant the maintenance of a school for trained attendants and that registered nurses are employed in sufficient numbers to insure the proper nursing of all acute cases and proper supervision of the pupil attendants in training.

Administration. There must be a competent principal of the school who is a licensed registered nurse.

Registered nurses must be in charge of all wards in which attendants are on duty. The number of registered nurses required will depend upon the number of beds in the institution, the type of patients and the facilities for caring for such patients.

Under favorable conditions there should not be less than two registered nurses for every ten attendants in training to the end that there may be constant oversight of the attendants in order that the patients may have proper care.

Living conditions. The institution shall provide suitably equipped living quarters for those in training.

Training and instruction. The institution must meet the statutory requirements as to preliminary education and length of course.

Schools for attendants to be registered by the Department must provide service that will insure experience in the care of both adults and children, in the performance of household duties and in the preparation and service of food.

The following types of cases will afford such experience; pupils in training should assist in the care of only such cases: chronic and convalescent medical patients; minor operative and convalescent surgical patients; obstetrical patients, postpartum after third day; normal infants after third day; tubercular patients; convalescent and well children. Attendants may not be placed on special duty.

Hospitals Maintaining both a Nurse Training School and a School for Training Attendants

A general hospital desiring approval for conducting both a registered nurse training school and a school for training attendants must furnish evidence of ability to provide:

a Adequate clinical material for the student nurses in all required services.

b A daily average of 200 patients, exclusive of dispensary cases.

c An assistant to the principal of the training school for nurses, such assistant to be a registered nurse competent to and charged with supervising and carrying on the course of instruction for attendants.

d Separate living quarters for the attendants in training.

e A number of registered nurses, sufficient to direct and supervise the attendants in training, to the end that attendants in training may not be left under the supervision of a pupil nurse in training and thus interfere with the right care of the patients in the ward.

f The uniform distinguishing attendants in training from all nurses in training to the end that there may be no confusion of the services to be performed by the different classes of pupils.

Registered Nurse Training Schools in Other States

Registered nurse training schools without the State and maintaining schools for training attendants must, in order to retain their registration, conform to all the requirements prescribed for similar schools within the State.

The following list, arranged by states, contains the names of institutions registered by the Regents or accredited by the Department. The amount of credit that will be allowed for graduation from each institution not formally registered is given in years in each case.

**Schools of the United States and Canada
Registered or Accredited June 1922**

Alphabetically arranged by states and provinces

UNITED STATES

CALIFORNIA

Registered

California Lutheran Hospital (course, two years, four months)

Synopsis

This study is made for those who would see at a glance the statutory requirements for the practice of nursing throughout the United States. There are four distinct lines of legal requirements: (1) preliminary education; (2) professional training; (3) licensing tests and (4) registry. These four items with (5) the title of the executive officer and of the administrative board are given uniformly in this synopsis. If there are no legal requirements the word *none* covers all five items.

Alabama. (1) A grammar school education or its equivalent; (2) graduation from a training school connected with a general hospital or sanitarium having not less than three years' consecutive training; (3) examination or graduation from the Bryce Hospital Training School for Nurses at Tuscaloosa, or registration in another state demanding equal qualifications; (4) with the board; (5) secretary, Nurses Board of Examination and Registration, Linna H. Denny, 137 N. 60th st., Birmingham.

Arizona. (1) "Determined by the board"; (2) completion of a two-year course in an approved nurse training school; (3) examination or registration with another state or territory having an equal standard and granting like privileges to licensees of this board; (4) with the board,

annually; (5) secretary, State Board of Nurse Examiners, Gertrude F. Russell, State House, Phoenix.

Arkansas. (1) Completion of one year of high school or its equivalent; (2) three years' instruction in a training school connected with a general hospital; (3) examination in subjects specified in the law, or a license from another board having equal requirements; (4) with the board and in the office of the clerk of the county of residence; (5) secretary, Board of Nurse Examiners for Arkansas, Frankie Hutchinson, 310 W. 12th st., Little Rock.

California. (1) Rules of the state board of health require at least a one-year course in an accredited high school or its equivalent as the board may decide; (2) graduation from an accredited training school attached to a reputable hospital approved by the board; (3) examination under jurisdiction of the state board of health or license from another state board or foreign government having equivalent requirements; (4) annual registration with the Bureau of Registration, State Board of Health; (5) director, Bureau of Registration of Nurses, Anna C. Jammé, 724 Wells Fargo Bldg., San Francisco.

Colorado. (1) Rules of the state board of nurse examiners require the completion of one year of high school work—subsequent to January 1, 1922, two years of high school; (2) three years' training in an

approved school connected with a general hospital; (3) examination or license from another state board having equal requirements; (4) registration with the board; (5) secretary, State Board of Nurse Examiners, Louise Perrin, State House, Denver.

Connecticut. (1) Rules of the board require one year of high school or its equivalent; (2) graduation from a two-year course in an approved nurse training school; (3) examination or license from another state board having an equal standing; (4) registration with the board; (5) secretary, State Board of Examination and Registration, Mrs Winifred A. Hart, 109 Rockton av., Bridgeport.

Delaware. (1) One-year high school education or its equivalent; (2) graduation from a training school connected with a general hospital having a two-year course; (3) examination—licensees from another board having an equal standard and extending like courtesy to licensees of this board may be registered without examination; (4) with the board; (5) secretary, State Board of Examiners, Mary A. Moran, 1313 Clayton st., Wilmington.

District of Columbia. (1) Rules of the board require two years of high school or its equivalent; (2) graduation from a registered training school maintaining at least a two-year course; (3) examination or license from another board having equal

requirements; (4) with the board; (5) secretary-treasurer, Nurses Examining Board, Margaret Hutchinson, 1337 K st. N. W., Washington.

Florida. (1) Rules of the board require completion of four years of high school or its equivalent; (2) graduation from a school for nurses connected with a hospital approved by the state board in which such school is located; (3) examination or registration in another state having equal requirements; (4) with the board, annually, and with the clerk of the county court of residence; (5) secretary, State Board of Registration of Nurses, Mrs Louisa B. Benham, Hawthorne.

Georgia. (1) Determined by the board; (2) graduation from a regularly chartered training school having a three-year course and connected with a general hospital or sanitarium; (3) examination or registration with the board of another state having a standard equal to that of this board; (4) with the board; (5) secretary, State Board of Examiners of Nurses, Jean Harrell, 110 Luckie st., Atlanta.

Hawaii. (1) None; (2) graduation from a three-year course in an accredited training school; (3) examination or registration with the board of any state maintaining a similar standard to this board; (4) with the board; (5) secretary, Board of Registration of Nursing, Grover Batten M. D., Honolulu.

Idaho. (1) Rules of the board require, subsequent to 1920, four years of high school; (2) graduation from an approved training school having at least a three-year course; (3) examination—the board may at its discretion register licensees from another board having equal requirements; (4) with the clerk of the county of residence and with the department of law enforcement, annually; (5) Department of Law Enforcement, Bureau of Licenses Examiner, Napina Hanley, Boise.

Illinois. (1) One year of high school or its equivalent as determined by an examination conducted by the Department of Registration and Education; (2) graduation from a training school having at least a twenty-four months' course and approved by the Department of Registration and Education; (3) examination or registration with another state board having equal requirements; (4) with the department, annually; (5) superintendent of registration, W. W. Miller, State Capitol, Springfield.

Indiana. (1) Completion of the eighth grade of the common schools; (2) graduation from a three-year course in an approved nurse training school; (3) examination or certificate of registration from another state board having equal requirements; (4) with the board and with the clerk of a county circuit court; (5) secretary, State Board of Examination and Registration, Ida J. McCaslin, 501 E. Noble st., Lebanon.

Iowa. (1) Rules of the board require completion of a grammar school course and one year of high school or its equivalent; (2) graduation from a recognized training school attached to a general hospital with a three-year course of study; (3) examination or a certificate from another state board having equal requirements and granting like privileges to licentiates of the Iowa board; (4) with the state board of health and with the recorder of the county of residence; (5) secretary, State Board of Health, Rodney P. Fagen M. D., Capitol Bldg., Des Moines.

Kansas. (1) At least one year of high school or its equivalent; (2) graduation from a two and a half-year course in a training school connected with a chartered general, state or special hospital in good standing; (3) examination or a license from another state board having equal requirements; (4) with the board and with the clerk of the county of residence; (5) secretary, State Board of Examination, Sister Mary Helena, St Luke's Hospital, Eldorado.

Kentucky. (1) One year of high school or its equivalent; (2) graduation from a three-year course in an approved nurse training school connected with a special hospital or infirmary or with a general hospital; (3) examination or a certificate from another state or foreign country having equal requirements and granting like privileges to licensees of this board; (4) with the board, annually, and with the clerk

of the county of residence; (5) secretary, State Board of Examiners of Trained Nurses, Flora E. Keen, Somerset.

Louisiana. (1) One year of high school education or its equivalent; (2) graduation from a training school connected with a general hospital and giving at least a three-year course; (3) examination — reciprocity with states having equal requirements; (4) with the clerk of the district court in the parish of residence and with the State Board of Health; (5) secretary, State Board of Nurse Examiners, Dr J. S. Hebert, 1121 Maison Blanche, New Orleans.

Maine. (1) Two years high school education or its equivalent; (2) graduation from a two-year course in a nurse training school in good standing; (3) examination — registered nurses from another state having an equal standard and granting similar privileges to licentates of this board may be registered without examination; (4) with the board; (5) secretary, Board of Examination and Registration of Nurses, Rachel A. Metcalf, Central General Hospital, Lewiston.

Maryland. (1) High school education or its equivalent; (2) graduation from a three-year course of a training school connected with a general hospital or through affiliation with two or more hospitals; (3) examination or, at the discretion of the board, a certificate of registration from

another state board having a standard equal to that of this board; (4) with the board; (5) secretary, State Board of Examiners of Nurses, Mary Cary Packard, 1211 Cathedral st., Baltimore.

Massachusetts. (1) None; (2) none; (3) examination—registration in another state whose standard equals that of this board may be accepted in lieu of examination; (4) with the secretary of the board; (5) secretary, State Board of Registration of Nurses, Samuel H. Caulderwood M. D., State House, Boston.

Michigan. (1) One year of high school or its equivalent; subsequent to December 1923, two years; (2) graduation from a two-year training course in an approved school; (3) examination or certificate of registration from another state board having requirements equal to this board; (4) with the clerk of the county of residence; (5) secretary, State Board of Registration of Nurses and Trained Attendants, Mrs Helen de Spelder Moore, 206 State Office Bldg., Lansing.

Minnesota. (1) Equivalent education to that required for admission to the high schools of the state; (2) graduation from a three-year course of a training school connected with a general hospital; (3) examination or registration with another state board having equal requirements; (4) with the board; (5) secretary, State

Board of Nurse Examiners, Dora M. Cornelisen, Old State Capitol, St Paul.

Mississippi. (1) "Good common school education"; (2) graduation from a two-year course of training school connected with a general hospital or sanitarium; (3) examination—graduates in practice at the time of the passage of this act, and licensees of another board having equal requirements may be registered without examination; (4) with the board; (5) secretary, Nurses Board of Examination and Registration, Ernestine Bryson, Houston

Missouri.
